Potassium sulfate - Classification & Labelling proposal	
IdentificationName: Potassium sulfateEINECS: 231-915-5/CAS: 7778-80-5	
Joint Registration dossier Classification proposal taken into account the presence of impurity KHSO4 up to 15%	
DSD - Classification proposal according to 67/548/EEC	
Potassium sulfate with KHSO4 < 5%	No classification No labelling - Indication of danger
Potassium sulfate with KHSO4 ≥ 5% and < 10%	Risk Phrases: R36 Irritation to eyes Labelling – Indication of danger: Xi
Potassium sulfate with KHSO4 ≥ 10% and ≤ 15%	Risk Phrases: R41 Risk of serious damage to eyes Labelling – Indication of danger: Xi
GHS - Classification proposal according to EC 1272/2008 (CLP)	
Potassium sulfate with KHSO4 < 1%	No classification No labelling – Signal word
Potassium sulfate with KHSO4 ≥ 1% and < 3%	Hazard statements: Eye Irrit. 2 Reversible eye effects H319 Causes serious eye irritation Labelling – Signal word Warning
Potassium sulfate with KHSO4 ≥ 3% and ≤ 15%	Hazard statements: Eye Dam. 1 Irreversible eye effects H318 Causes serious eye damage Labelling – Signal word Danger
